ANOTHER CASE OF THE "UNLOADED" GUN

LITTLE WILLIAM SNOW ACCIDENT. TALLY SHOT BY HIS BROTHER. IN CASEY—LIVE NEWS FROM WEST END.

Hintonville, July 20. The old story of not knowing the pistol was loaded came to light again Wednesday afternoon when William Snow, the 10-year-old son of a prominent Casey county citizen, was shot and probably fatally wounded by his 13-year-old brother, Allen.

The boys were examining an old pistol which had been laid away for some time, when Allen accidentally touched the trigger and the weapon was discharged. The ball entered the younger boy's cheek and he fell unconscious. Physicians were hastily summoned, but at last accounts had been unable to locate the bullet and held out but little hope for the lad's recovery. Allen Snow is said to be nearly distracted over the unfortunate affair.

SQUIRE M'KECHNIE SAFELY HOME AGAIN

HAS BEEN QUITE ILL IN BONNIE SCOTLAND BUT IS BETTER.—"LUG" OF HIS VOYAGE.

Squire and Mrs. James McKechnie have returned from their trip to Scotland, the birthplace and former home of the Squire, which he had not seen for forty years. The squire had a severe spell of illness while across the water and is about ready to agree that there is no place on earth like the old Kentucky home. He is still considerably "under the weather," but improving nicely. He sent the I. J. "lug" of the voyage, coming across the Atlantic, which tells of his trip across as follows:

HOMEWARD BOUND.

After a delay of 24 hours at this place owing to the seamen's strike, we bid Liverpool adieu for a while at least. After a sojourn of 33 days in Scotland, England, we at last, I very reluctantly bring our tour to a close.

I had intended keeping our friends in Lincoln county, and the foreign lands acquainted with our travels here, but the Interior Journal goes to all ends of the earth but owing to illness I could not get around much and when I was getting around I didn't feel like writing. However, I have kept my promise better than some friends who promised to keep us informed of what was going on in Lincoln county, and the rest of the globe. The gaily ones know who I meant.

Monday Morning July 3rd.

On board steamship Arabia. A beautiful morning still in sight of land. Our ship called at Queenstown Ireland this A. M. at 8 o'clock to take on passengers and mail for the United States, were delayed two hours doing this. I can't say yet what is the size of our family; will report after the roll is called.

This ship is not to be compared with the Mauretania, the ship we came here on, but she is reported to be a good one. I can tell more about it when we see how she behaves herself on the briny deep.

Monday July 3rd.

At 2 P. M. we ran upon and of course passed them without any provocation, 17 British war vessels. I just thought of our friend Caswell Stanley had been there, with his and Uncle Sam's fighting tools, we could have some fun. We are now passing Fastnet Light House and in a short while will be out of sight of land until Sunday or Monday the 9th or 10th inst. We are having a beautiful day, the Irish Sea where we are now is a smooth as Dick Bratton's fish pond. Of course there are no such fish in it. At least if there is there is no one telling it. Mrs. McKechnie is well and upon deck with her knitting. I will call it. It is not the right name she can correct it when she sees you.

4 o'clock P. M.—Land has disappeared, nothing in sight now only sea and sky, and our ship, our wireless telegraph however just had a message from the steamship Franconia, and a little later we could see her in the distance.

Musical by the ship's orchestra in the dining saloon at 8 P. M., which furnishes for the day.

Tuesday Morning July 4th.

The first thing which attracted our attention this morning was they had turned the clock back 74 minutes so we were up too soon for breakfast; went upon the upper deck to get the fresh air and wait for the breakfast gong.

Several vacant seats at the breakfast table owing to sea sickness mostly among the children. So far I myself have improved since I got aboard ship Sunday noon. This would indicate that I had missed my calling and ought to be a sailor instead of a Squire.

This being the Fourth of July we are doing some celebrating. We have the dining saloon decorated with the stars and stripes, the Union Jack, and the flag of poor, down-trodden Ireland, which consists of a solid green with a figure in the center holding a harp. Among the passengers there are those who would die for their choice; as for me I love them all, but do not like any of their forms of government. I might say the United States has the kindest following in this crowd. Our supper tonight is the following menu:

Potage Americaine, Halibut, Lexington, Fillets of duckling, Long Island, Ribs of beef, Howe, Philadelphia Capon, John Hancock, Patna rice,

Carrots and turnips, fried egg plant, boiled and browned potatoes, Cold ox tongue, York ham, Bunker Hill Pudding, Apricots

Carroll, Ice cream and wafers, Chinese Desert, Coffee.

This is an American dinner. I can't tell you whether or not it was good. Mrs. McK. sampled it all and she will likely write and tell you about it at her leisure.

Wednesday Morning, July 5.

At 5 o'clock A. M. I went upon deck and found there was a strong head wind blowing, and a rough sea coming. The sailors called it a choppy sea but that don't make me change its name. I call it rough and getting rougher.

Noon, still a rough sea, and foggy; fog whistle blowing every minute, or so. A good many absentees at dinner table Mrs. McK. in the absent list.

The ship's orchestra will play in the second cabin dining room at 3 P. M. Orchestra on hand at the appointed time and gave a fine selection of English, Irish and Scotch pieces, among the Scotch selections were: Annie Laura and Auld Lang Syne. The day has been rough throughout. Concert again tonight at 8 P. M.

Thursday July 6.

A rough, wet morning and the fog horn is being sounded; it continues rough until noon, fog lifts occasionally and bids fair to be nice weather soon.

A beautiful evening the most of the sick ones on board for supper. Mrs. McK. is about over her sea sickness again and able to sample the good eat that is furnished. A White party for 8 o'clock tonight and a Stag party at 10 P. M. is on the program. I will not take them in, so I will not be able to report them. We have four colored men passengers on board they are Hindoos, from Calcutta in the East Indies. They are well educated very reserved and have been to that city on a visit. They are in business in Atlantic City, N. J., and are fond of the United States.

Friday Morning July 7.

Beautiful morning, a little foggy at times which calls for the fog horn. Beautiful evening and not much news.

They seem to get wireless dispatches but they do not give them to the passengers as the steamer Mauretania did as we went to England. There has been five accidents on board since we left Liverpool Sunday, five different ones have had their limbs broken. Some of them slid and fell on deck others fell down stairs, and I hear it reported too much booze in some cases.

We are just a little over half way across the pond now, which means something like ten days passage, while we went across in five days just the difference between a fast and slow ship, and of course the longer they take, the more liable you are to storms, and other calamities.

Saturday Morning, July 8th.

A nice, calm sea running; everybody on hand for breakfast. I believe Mrs. McK. is well again and took up her knitting again and is wishing for home. I am not much well but keep going and on the look-out for something new, but this is a poor place to get news, just sky, sea and ship, which gives plenty of opportunity for thought and study, but as for me, I don't know where to begin, so will not undertake to picture the immensity of God's handiwork. Just come and see for yourselves.

Sunday Morning, July 9th.

A beautiful morning after a night's tussle with a choppy sea. Everybody seems well and happy. Divine services at 10:30 A. M., held by the Church of England people. They just sang, play the fiddle, pray and read. They prayed for the King of England, the president of the United States and the Emperor of Germany and all the royal family and left the poor population to take care of themselves. They did not worry the congregation as it was all over in 30 minutes. They don't pray loud and long when the sea is calm, and everything running right. What is the difference between life on the sea and on land?

We are promised a sight of land in about 24 hours, which will be the night of the 10th. I believe everybody is ready for the sight as everyone is tired of looking at sea and sky alone for nine days.

Monday, July 10.

Another beautiful morning; some fog again about 8 o'clock but soon cleared up and every one seems to be enjoying life on the ocean wave.

The bulletin at 12 noon says we have 237 miles to travel to put us in the port of New York, so if the Lord is willing we will get there tomorrow at noon. It seems like a life time when we boarded this ship. She is seemingly a very good ship, but too slow to suit me. We expect to see Nantucket light house tonight by 8 o'clock. Will finish this epistle to

AEROPLANE FLIGHTS BY BIRD MEN AT LEXINGTON FAIR

Flights Will Begin on Tuesday and Several Will be Made by J. A. D. McCurdy Each Day Over Lexington

Aeroplane Flight of J. A. D. McCurdy Over the Rocky Mountains in Colorado.

Outstanding in importance among the amusement features arranged for the big Blue Grass fair, which will be held at Lexington the week of August 7th to 12th, are the daily aeroplane flights to be given by the world famous aviator, Mr. J. A. D. McCurdy.

No other modern science is the subject of so much interest today as the effort to perfect aerial navigation. Among those engaged in this work, Mr. McCurdy holds a foremost place. The feats which he has already accomplished have given him a reputation that is not confined to the American continent, but extends throughout the world. A nephew of Dr. Alexander Graham Bell, inventor of the Bell Telephone, Mr. McCurdy has been placed all his life in the closest touch with foremost scientific investigation, and his work with heavier-than-air machines has done much for the development of the science of navigation.

Perhaps best known among his accomplishments along this line is the flight made last winter from Tampa to Havana. It was the longest water flight in the history of aviation and proved beyond peradventure the absolute practicability of the aeroplane. In addition Mr. McCurdy was the first man to send a wireless message from an aeroplane, and he has made numerous other experiments and flights that have not only been spectacular, but have been of large service in the advancement of the science to which he has devoted his life.

Formerly connected with the Glenn H. Curtiss Co., Mr. McCurdy has now a powerful organization of his own and is building his own machine. He is using the world famous Gnome motor, which holds all records in aviation for distance, duration, speed and altitude. The speed of the new McCurdy machine, which will be shown to the American people for the first time at the Blue Grass fair, is equal to that of

any of the foreign monoplanes. With it McCurdy can easily attain seventy-five miles an hour. With such a machine he will give demonstrations at the Blue Grass fair that will be not only thrilling to the spectator, but of very great educational value as well.

Beginning Tuesday, August 8th, the second day of the fair, Mr. McCurdy will make several flights each day. He will attain an altitude of more than a mile and will remain in the air from thirty to forty minutes. On August 8th he will also make a flight from the grounds of the Blue Grass Fair association in Lexington to Winchester, the county seat of Clark county, eighteen miles distant. There he will alight for a few minutes to carry a communication from the officials of the Blue Grass fair to the mayor of Winchester, and when an answer is received, will come immediately back to the Blue Grass fair grounds. The round trip, including the stop at Winchester, will be made in less than an hour and a half. This trip will not only prove the speed of the McCurdy machine, but it will also show the practical uses to which modern air craft of the best type can be put.

The management of the Blue Grass fair anticipates that these aeroplane flights alone will be considered by the people of Central Kentucky well worth the price of admission and will draw to the grounds record-breaking crowds. The flights will be arranged at such hours throughout the day that they can be witnessed by all. Those who come from a distance and are compelled to take early afternoon trains will have the opportunity to see these flights before being compelled to leave.

The fastest and most powerful of all American aeroplanes directed by the most skillful of American aviators is the attraction that will be offered during the week of the Blue Grass fair, August 7th to 12th.

FOR REPRESENTATIVE

William H. Shanks announced his candidacy for Representative from Lincoln county, subject to the action of the Democratic party.

The Frankfort News Journal says that State Librarian Francis Kavanaugh will probably have no opposition for reelection when the next session of the general assembly convenes. This is exactly as it should be. The legislators could not possibly find a more efficient librarian than Mr. Kavanaugh. If they went over the United States with a fine toothed comb, nor an official more completely devoted or more faithful to his duty. The Interior Journal is for him, first, last and all the time and wants to move right now that he be elected for life.

The republican State convention suggested Senator Bradley as a running mate for Taft next year. Did the originator of the idea intend it as a boost for Taft or a slam at Bradley?

BOWEN

After quite a drought we had a good rain Sunday. It seems that growing vegetation has almost taken new life. This rain was appreciated by all for we had been slighted for some time. John F. Russell and family were visiting relatives in Junction City this week.

The funeral of Mrs. Sallie Crutcher, wife of Dora Crutcher, was held at Harris Creek last Sunday in the presence of a large crowd of relatives and friends. The sermon was preached by Rev. Jas. Edwards. Mat Murphy has been with his father, of Fry's Creek, for some time. The elder Murphy passed into eternity after a long illness.

Mrs. Pearl Vaughn, of Buehertown, who is quite an accomplished nurse, is back with Mrs. Mack Moore, after a short visit with her relatives at home. Mrs. Moore remains quite ill. Dock Russell, of Hall's Gap, made a short visit in this section, calling on Elizabeth Young, one of his old Civil War comrades. We presume several battles were fought during his visit.

Mrs. H. Young, who has been ill for some time, is improving slowly. Wm. and Thomas Carney have recently arrived from Illinois. They report corn crops in that country suffering for want of rain, also the potato crop a failure.

Wm. Buchanan and wife of Stanford, called on his sister, Mrs. John Russell last Saturday.

Judge Moore, of Danville, visited his brother, Mack Moore Sunday. Owing to poor health, Mr. Moore has not been in this neighborhood since last year. He is now much improved.

A good protracted meeting has just been closed at our school house. Services were well attended and very good order prevailed. The meeting was conducted by W. D. Southern and of Moreland.

Our school began last week with a good attendance, considering the busy time, with almost all children. Up to date 37 have been enrolled and 36 are in attendance. School is being taught by J. H. Wolford, of the West End. We expect to have an excellent school this year. The school house premises are well equipped generally. The house was roofed this summer with a good metal roof, and a well dug which affords a nice supply of pure water. All children of school age are expected to attend without being compelled to do so, under the compulsory law.

Bring Your Prescriptions Here To Be Compounded

When your physician has prescribed a medicine for you to take, the next important step is to have that prescription placed in the hands of a thoroughly reliable and competent pharmacist so it will be compounded exactly as directed. We have gained an enviable reputation for always being very careful and painstaking in our compounding and feel that, in all justice to your own good health, you should bring your next prescription here. Here, too, you will find a complete and inviting display of toilet articles, rubber goods, soaps, perfumes, toilet preparations and all standard remedies. For interior decorating we carry and recommend ALABASTINE, the beautiful wall coating. Call and see samples of tints and ask us about it.

"What a Relief!"

Only the woman who has tried knows what comfort and relief a New Perfection Oil Cook-stove brings into the kitchen.

It is not only that the New Perfection cooks so well. It saves so much work in other ways. There are no ashes to clean up before going to bed; no fire to bank for the night. Everything is ready for cooking in the morning at a touch of a match.

You are saved from an overheated kitchen; saved from soot and dirt; saved from chopping wood and carrying coal. In the kitchen or the laundry, for the lightest or the most elaborate meal, you will find the New Perfection stove with the New Perfection oven is the best and most convenient.

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handily finished throughout. The 2 and 3 burner stoves are loaded with without a cabinet top, which is fitted with drop shelves, towel racks, etc.

HONEST MEDICINES VERSUS FAKES.

President Taft's recent message suggesting an amendment to the Pure Food and Drug law in relation to Prepared Medicines, does not refer to such standard medicines as Foley's Honey and Tar Compound and Foley Kidney Pills, both of which are recognized by the medical profession as the best known remedies for coughs and affections of the throat, chest, coughs, colds and affections of the throat, chest and lung for children and for grown persons, and it remains to day its pre-eminence. Find Foley Kidney Pills are equally above all other preparations in its effective and meritorious.

Laxative Sent Free to Try

It may be taken for granted that there is no family of any size that goes very long without needing a laxative. If you don't know of a good laxative, or the laxative you are using is losing its effect, we want to call your attention to Dr. Caldwell's Syrup Pepsin, which thousands of families are using successfully.

We have scores of letters from mothers, and scores from prominent men saying they are using it personally and giving it to their families, men like Mr. C. K. Smith of the Traffic Clearing House, Pitts Bluff, Ark., and Mr. George B. Turner, a lawyer of Harlan, Ky. The thousands of mothers who use it themselves and give it to their children would take too much space to mention.

The reason they prefer Syrup Pepsin is that it is a mild, gentle laxative, one that does not gripe—effective and yet so mild that babies can take it. Its tonic ingredients invigorate the body and strengthen the stomach and bowels so that they again do their work naturally. If you have been a victim of indigestion, flatulence, constipation, you will discard them when you once use Syrup Pepsin.

You can buy a fifty cent or one dollar bottle of any druggist, but before doing so you may want to try it free. If so, send your address to Dr. Caldwell and he will promptly forward a free sample bottle. Then, being convinced, do as others are doing and buy it in the regular way of your favorite druggist.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. W. B. Caldwell, 241 Caldwell Building, Monticello, Ill.

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps.

TO Whom It May Concern:—

I have inspected Tortu-
gus, a pasture in Southwest Texas and
find it to be all that is claimed for it
by the Texas Land Development Co.,
Although the farmers in this section
were not through planting corn, I
found the first crop of corn cut and

a number of farmers and found all of
them prosperous and content and mak-
ing more money than it seems possi-
ble to make on a farm. The climate
was ideal and every man in our party
purchased a farm. Yours truly.

Terrible Affair at Burnside

George Ellis, of Greenwood Whitney
county, and Thomas Hinton, of the
same place, are in jail at Somerset,
charged with shooting to death Magis-
trate Thomas Gamlin, of Greenwood.
Magistrate William Heath, of Burn-
side. The shooting was done in the
office of Marshal Heath, in Burnside.
Ellis, who is said to have been drunk
at the time, was arrested by his friend
Hamilton, and taken to the office of
Marshal Heath. There they found
Gamlin, a Magistrate of Greenwood
and a near neighbor of Ellis. There
was blood between Ellis and Gamlin,
but nobody knows what started the
row, nor will the survivors dis-
cuss it. It is only known that, within
a few minutes after Ellis and Hinton
entered the room there was a fusil-
ade of shot, and Heath and Gamlin
were found dead. The shooters nar-
rowly missed a mob but the Pulaski
county sheriff got them to Somerset
safely.

gan to abuse the family. They all got
scared and ran away from the house.
Mr. Beazley was so badly scared that
he ran to Mr. Bratton's to get him to
protect him. And he says he don't
know what happened after he got to
Mr. Bratton's but he thinks, he ran
one way and Dick the other, he lost
his hat and shoes.

Mr. King says it looks like a cy-
clone had passed through his corn and
tobacco. Mr. James Beazley of Lan-

IN MEMORIAM.

In memory of John Bruce, infant
son, of Mr. and Mrs. Pate King, who
died June 29th 1911 at 6:30 A. M.,
of a complication of troubles, aged 6
months. All that loving hands could
do to save him was done, but God
knew best, and took our baby home,
to dwell with Him. He was too good
and pure for this earth. Our home is
so lonely without our baby. He was
such a bright light in our home. No
one knew him, but to love him, it was
so hard to give him back to God who
kave him.

But I have a thought, my baby,
And it soothes the soul oppressed.
To a home beyond the river
You have gone to sweetly rest;
And I have a faith God gives me.
While I journey weary, here,
If I gain a home in heaven
I shall meet my baby there.

When Well-Known Stanford People
Tell It So Plainly.

When public endorsement is made
by a representative citizen of Stan-
ford the proof is positive. You must
believe it. Read this testimony. Every
man, woman or child with any
kidney trouble will find profit in the
reading.

John T. Barnette Rowland St., Stan-
ford, Ky., says: "I used a great num-
ber of kidney remedies during the
past three years and I can say that
Doan's Kidney Pills brought me the
first relief I received. My work ob-
liged me to do heavy lifting and stoop-
ing and this weakened my kidneys.
I suffered from a pain across the
small of my back that often became
so intense I was unable to do any-
thing. I was feeling miserable when
I learned of Doan's Kidney Pills and
they were recommended so highly
that I procured a supply at Shugart's
& Tanner's Drug Store. This remedy
gave me almost instant relief and
for that reason I gladly recommend
it."

FARM FOR SALE

We will sell at public auction in
front of the court house, in Stanford,
Ky., on the second Monday in Septem-
ber at 2 o'clock P. M., the farm known
four and a half miles from Stanford
on the Hustonville pike.

This farm contains one hundred and
fifty acres, one hundred of which is in
fine state of cultivation. Over one
thousand dollars worth of locust post
can be cut from this place, also a lot
of walnut lumber.

A splendid stock pond fed by a never
failing spring.

About sixty acres of this farm is es-
pecially adapted to the raising of hemp
and tobacco.

New, five room house, just com-
pleted. One mile from church and
school. One large tobacco barn, built
last fall, also good stock barn. Ten
acres of young orchard.
This is a splendid home and must
be seen to be appreciated. If no sale
is made this farm will be rented on
the same date, to the highest bidder
for the year of 1912. A. D. ROOT,
